SONG OF THE OLD YEAR. ру шил 100к.

Oh. I have been running a gallant career. On a courser that needesh no bridge nor gold; But he'll soon change his rider and Leave the Old Year Lying low in the dust on Eternity's road. Wide has my track been and rapid my haste,

But whoever takes heed of my journey will find. That in mubic-built city and camb-trod weste, I have left a fulr ret of bold waymarks bellind. I have choked up the earth with the sturdy cha board, I have chequered the air with the lamners of strife, Fresh are the tombstants I've scattered abroad,

Bright are the young eyes I've opened to life; My race Is night o'er on Time's iron grey steed, Yet he'll still gallon on as he gailons with me, And you'll see that his mane will be flying again Ere you've imried and under the green folly tree,

If we tell of the sadness and call I've wrought, Yet remember the share of " good works" I have done Ye should belance the clouds and the canker I've brough With the grapes I have sent to be crushed in the sun If I've added grey threads to the worldly wise heads.
Thave deepened the chestuat of infancy's carl; If I've cherished the garm of the shipwresking worm.

There quickened the growth of the crown-studding pearl, If I've lengthened the year fill it touches be pail. I have bid the sweet shorts of the orange bloom If I've thickened the moss on the rain's rank wall . That strengthened the love-hower tendrift as well.
Then speak of me falrly, and give the Oil Year A light-hearted parting in kindness and glos-Chant a roundelay over my lawel-deeked beer

Ye have maranared of late at my gloom laten hours, And look on my pale wrinkled face with a frown; But ye laughed when I spangled your pathway with

CONDEMNED OUT OF HIS OWN мовти.

Is Captain Semmes, of the "Confederate" steamer Alabama, a pirate? Lieutenant Raphael Semmes, U. S. N., published in 1851 "Service Alloat and Ashore." He is the individual who now commands the Ala-

The following is an extract from Chapter V. of that work :

"At one time there was much excitement in the squadron on the subject of prvateering. General Salus, who succeeded Paredes in the Presidency, and who in the course of the war made himself famous by proclaiming no quarter to the Yankesi,' made stremous efforts to get which should upon our commerce. If Mexico had been a maritime people, this would have been her true pelicy. A few fast sailing vessels, distributed in different seas, and officered and manned by bold fellows in the pursuit of plunder, might have inflicted incalculable injury upon us. This system of predatory warfare, more than any other, equalizes the strength of nations on the water. Fleets and heavy arned ships are of no avail against the lighter heels and more erratic wanderings of this description of force.

"But Mexico had no materials wherein to op To render privateering available to her under the laws of nations, it was necessary that at least a majority of the officers and crew of each vessel should be rilicens—not citizens made ad hoe, in fraud of the law, but bone flde citizens ; and any vessel which might have attempted to cruise under a letter of marque and reprisal, without the essential requisite, would have be come, from that moment, a pinus. As Mexico had never possessed any marine, military or commercial, worth the name; and as what lit-tle she had at the commencement of the war had been taken from her by our cruisers, she found it impossible to fallil this condition, except to a very limited extent.

"President Salas, in order to overcome the difficulty, endeavored—contrary to the good faith which should exist between nations, even mun when stoud exist served motors, every when at war, and in violation of he plainest principles of common sone—to munifacture citizens for the occasion. For this purpose he issued blank certificates of naturalization to the Mexican consuls at Havana, and other places, with directions to those officers to fill them up with the names of any adventurers that might otler, irrespective of those great praciples so well understood and practiced upon by all envilized nations in a proceedure of such moment. Without the observance of these principles no man can transfer his allegiance tel another country, and claim the protection due o citizen this under its laws. A sort of jus grainm has grown up on the subject, which individual materials and the city Meste Slore, and the subject, which individual materials are received at the city Meste Slore, and the city Mester Slor

It would be a mon-trons doctrine indeed, it, on the eve of a war-or at any time during its existence either of the belligerents might invite the ritizens of other nations ad libition to take part in

in his quarrel, and with a single stroke of his pen make them citizens pro has Eleven years ago it did not appear to Mr. Semmes that citizens could be manufactured "for the occasion." The applicability of the above extract to the present position of the au-

Never since the signing of the immortal Declaration of Independhas so momentous a document appeared on this continent, if indeed in the world. A large number of human beings are affected by it, more or less.' It is plain, to the point and was anothe to give it the charactistics of mercy and forbrarance. In that time ample opportumay has been given for its opponents to give in heir-reasons against it-yet we believe the voice of the nation to-day in regard to it, is a hearty and responsive Assas.

It is issued by the President as the Command er-in-Chief of the army and pavy of the United States, and is issued, as he declares, "as a necessary war measure." It bears only upon States and parts of States now in active rebellion against the Government, and upon them alone It refutes the off repeated calamny of a desire or intention to incite servile insurrection by urging the freedmen "to abstain from all violence, unless in necessary self-defence." It also enjoins upon them "to labor faithfully for reasonable wages." It also contemplates their being Preceived into the armed service of the United States to marrison forts and to man vessels."-This is, of course, a military accessity. The Golden Age of Enterprise, Since the creation of the world, no era has been so distingushed for its valuable discoveries as the XIXth century, and no people more enterprising than those of America. Though this is an age of magnificent projects, yet many of these prospects, however, which have for their immediate object the greatest benefit of the human race, fail in accomplishing the desired cuit. For instance, the labors of temperance lecturers, reformatories for inebriates, philauthropists, &c., bave had but little success on the general mass of mankind. We are ju hopes, however, that at last, we have the right man in the right place. We refer to Mr. Speer of New Jorsey, whose celebrated Sambaci wine promises to supersede all the alcoholic poisons in the country. As a wine it is healthy, innocent and delicious, without the trust thought of intrinear tion. We speak advisedly, baying tried it our selves. To persons who are week and sickly, the use of the Sambaci wine will restore their health and strength. Physicians, clergymen and temper acce advocates should encourage the use of the Sambaci wing, and thus aid the cause of temperance attended the public exercises, thus testifying their and moderation. We especially recommend it to bas been for years engaged in oreparing and per secting it and that it requires a four years' proces before it is fit for the market. - N. Y. Boplist.

Generally, and the control of the said only control of the said of the said only control of the said on the said o by both sides with splendid determinations. Gen. Rosecrans marched from Nashville last Friday with about 45,000 effective men and 100 pieces of grtillery and skirmished all the way to the battlefield the enemy resisting bitterly. Thereby was spant in reconnoitering. The enemy was strongly posted with artillery on the bank of Stone river west side—his flanks resting on Muriresboro, west side. The centre also had the advantage on high ground with a dense growth of redar marking them completely.

Their position gave them advantage of a cross lire. Gen. McCooks corps closed in on their left on Wilkersons Pike. Negley of Thomas's corps worked with great difficulty to the front of the cebel center. Resonerans Division being in the reserve. Crittendena corps was posted in compara tively clear ground on their left. Volumers and Van Cleves Division were in a front wood in reserve. The fight on Wednesday raged 11 hours with varying sdeecess. Gon. Rosen craus himself leadinglis men repeatedly. Our casualties reached almost 1500 being thus small by reason of the care taken by the officers in having men lay down when most exposed to the rebel fire. On Thursday morning Gen. NEW YORK, Jan. 3. A special despatch dated opposite Fredericksburg, 2d, states that flags of truce cross the river daily to escort families from our lines into the encmie's lines and rice cersa. The rebels have dug new ritle pits along the river banks in Fredericksburg, to provide against our crossing again. Stuart crossed the Rappahannoce back into the rebel lines neer Waterloo, ten miles west of Washington, on Wednesday night. Our cavalry, under Aveill, which went out in pursuit of him did not overtake his main body, but brought back 150 prison-Hamlin, with six members of Congress, who accompanied him, returned to Washington yesterday. Their only mission was to visit friends here.
